

# Sinai Urban Health Institute

## Who We Are

SUHI is the community research center of Sinai Health System. We are dedicated to improving the health of the most vulnerable communities, which we achieve by identifying health inequities; addressing these inequities with innovative solutions; and rigorously evaluating our work to ensure effectiveness.

## Our Mission

To achieve health equity among communities through excellence and innovation in data-driven research, interventions, evaluation, and collaboration.

## What We Do

### Health Equity & Assessment Research

Collection and dissemination of actionable health data in partnership with the community

Translation of findings to increase knowledge on determinants of health

### Community Health Innovation

Development and delivery of interventions to meet the health and social needs of communities

Provision of Community Health Worker (CHW) training and consulting services through the Center for CHW Research, Outcomes and Workforce Development (CROWD)

### Evaluation & Technical Assistance

Consultation for a range of planning and evaluation services for healthcare systems, community based organizations and grant funded projects

Capacity building and technical assistance for more efficient programming and better methods for data capture, storage, and reporting
